Dear Lee Chuang,

I would like to thank you and your team for making the recent Penang International Science Fair a great success. The fair attracted more than 30,000 visitors over the two days and received many favorable feedbacks.

This success would not have been possible without your unwavering support and participation in the science fair. I would also like to congratulate you on CR8's impressive exhibition booth which attracted a lot of visitors.

Finally, my appreciation to the team from CR8 who worked so hard to help make this year's Science Fair a truly great event.

Thank you!

Yours sincerely,

Dato' Gooi Soon Chai
